It has gone out that the President has determined to put off the appointment of a successor to P. M. General Key, until Its business concerns have been entrusted after the meeting of the Republican, Chicago Convention. His object is said to be the convention, when that fact shall have

The Washington National Republican rints a letter to the editor about the Whittaker case which seems disposed to and his Senatorial and social ostracism is, from his position, a thousand times more offensive than Whittaker's. There is a peculiar flippancy about our neighbor of the Standard in reference to the hypocracy of the Republican party towards the colored people-or rather, per saps-colored voters. Are not these co ored voters about as good authority as to who their real friends are as those chap who have so long been the co-laborers o the bulldozers of the South, because the colored men dare to vote with the Republ cans, and who have offered to make them selves servicable to their southern serv tors, by impeding their efforts to find ne confidence and hope.
